Joe can you ask what happened to the \$sava Scientific Advisory Board? The website hasn't had a link or page up for a month now. That's probably not just "webpage maintenance".

Jesse, why it's so important to you?

I didn't set up and recruit a SAB, \$sava did. Why? And why is it no longer needed? Kinda sketchy that they didn't even PR this change, imo.

Jesse every question you ask regarding \$SAVA is with the intention to cultivate FUD and short the stock. Why not concentrate on the fabulous cog scores and rejoice for future patients that will retain their memories, dignity and longevity?

If Remi is a charlatan as you believe him to be, then why did he not sell at all time highs? And if in fact they are lying, won't phase 3 expose the truth ?

I don't pretend or want to understand Remi. Yes P3 will fail. There is no need to put off the exposing and punishing the fraudulent behavior until that time. They are currently engaged in a massive fraud and should be stopped. The P3 is an additional but separate matter, imo
-  **Venkat Gorrepati** @gorrepativ · Dec 17, 2021
Not many people believe your stories, may be few shorts believe this. There are many drugs failed in P3 and save also may fail but not because of fraud.

[@jesse_brodkin](#) diservice to AD patients? How, pls explain how? The drug is safe and well tolerated, no adverse side effects, and it shows improvement. If anything, you and people like you are doing diservice to each and every family affected by Alzheimers. You should be ashamed

So you believe that everyone associated with SAVA is lying? Even the independent trial sites and those reading the data. Add in the FDA and NIH to the long list as well. In what universe does that even make sense? You continue to be delusional and are doing the real harm. Prayay
-  **Jesse brodkin** @jesse_brodkin · Dec 18, 2021
It only takes Wang, Remi and probably Burns to be active liars. Some at [\\$sava](#) are turning blind eye. Reg agencies haven't engaged yet. Sites are not privy to manipulation and need not be complicit.
-  **Jesse brodkin** @jesse_brodkin · Dec 17, 2021
Either I am an annoying skeptic or Remi is a sociopathic criminal taking advantage of sick and desperate people. Skeptic is an important and critical role in scientific inquiry while sociopath is an undisputed societal evil. Focus your attention as you see fit.
-  **Incite Insight** @inciteinsight · Dec 18, 2021
Jesse, do you believe 16 independent sites, with independent PIs, monitored by an independent CRA, all verified by the FDA and IRB, are faking the cog data?
- Here is the kicker, I haven't even listed all the three-letter redundancies to ensure integrity.

Disservice to ALZ patients? How delusional are you? Don't play victim as you attempt to stop a drug to market. Alz patients need new alternatives.
